

EVACUATION / TRANSPORT CHAIR PRO SKID-E

FEATURES

- **Reinforced tracks** offer increased control and smooth movement going down stairs
- **Ergonomic extendable handle** improves grip during stairway descent
- **2 front pull-out handles** make the chair suitable for transport upstairs
- **Rear wheels Ø20 cm** reduce friction and make it easier to move patients across a flat surface
- **Pivoting front wheels (Ø10 cm)** with brake
- **Adjustable headrest** is fitted with head restraint strap
- **Adjustable reinforced seat** in PVC confers better comfort and is easy to wash
- **Footrest** provides greater stability and improves patient's blood circulation.

Model	PRO SKID-E
Frame colour	Yellow
Code	SK10001E

PRO SKID-E is a stair chair designed to evacuate people with mobility limitations during an emergency, when lifts are unavailable or out of service. Complying with the EU Medical Device Regulation (MDR), this chair provides a smooth, quick and safe evacuation for both the patient and the operator.

Two reinforced tracks, an extendable control handle and a robust but lightweight frame offer stability and control during stairway descent operations.

Fitted with 2 front pull-out handles **PRO SKID-E can go upstairs**. We recommend the availability of a third operator during climbing operations. Clear graphic instructions are available on the back of the headrest.
