

## MULTIPURPOSE RESCUE BAG PRO RESPONSE

- The Response **bag's independent compartments** ensure quick access to contents
- The main compartment, accessible via a **top flap**, features elastic bands inside to secure accessories, alongside a **double-zip closure** for added security
- A **lower rigid compartment** provides ample space for carrying an oxygen cylinder and other essential medical accessories
- Inside the rigid compartment, an **elastic band** and a **large pocket with a strap fastener** help maintain organization of rescue equipment
- The **adjustable shoulder strap** and **wide handles** make it easy to carry
- A **transparent window** on the outside of the bag
- The bottom of the bag is **reinforced** on the outside.

Model	<b>PRO RESPONSE</b>
Color	
Code	<b>CB07021</b>

The **PRO RESPONSE** is a professional emergency bag designed to facilitate effective organisation of rescue equipment and accessories. It includes a large bag and two K-series bags with Matrix shells: the yellow K3 vial holder and the orange K5 infusion bag.

Its main feature is that it has two large, independent compartments that provide quick and efficient access to the contents, ensuring readiness in critical situations.

The main compartment opens from the top thanks to a flap with a double zip fastener. Inside this flap, two elastic bands offer an optimal solution for storing accessories, keeping them firmly in place. The lower compartment is rigid and specially designed to secure a cylinder by means of three straps. This additional space also offers the possibility of storing additional accessories.
